Connect-WG

RIPE69

Agenda

0. Opening and welcome (1 min)
1. Appoint scribe, Agenda bashing (5 min)
2. Working Group Charter Discussion (10 min)
3. (S)electing WG chairs (5 min)
4. Social Side of Internet Interconnection (15 min) - Uta Meier-Hahn
5. IP interconnection for Voice (15 min) - Martin John
6. CDN Best Practices (15 min) - Maurice Dean and Florence Lavroff
7. Euro-IX & IX-F (5 min) - Bijal Sanghani
8. Gambia IXP update (5 min) - Nick Hilliard
9. IXP Member list API (5 min) - Elisa Jasinska
10. Open mic and feedback (4 min)
11. Closing and lunchtime

The Charter

The Working Group will:

- Facilitate discussions about interconnect for Internet purposes, covering Layer 1-8
- Raise awareness in the community about Interconnection and the role this plays for the Global Internet
- Educate policymakers/regulation in how interconnect works
- Act as knowledge-base for interconnect related questions

The activities of the working group to achieve the goals are, without being exhaustive:

- Present and discuss topics related to IP interconnections at the RIPE Working Groups Meetings
- Discuss topics related to IP Interconnections on the working-group mailing list
- Monitor and take part in discussions in related working groups - like the cooperation wg and the routing wg
- Actively seek to take part in IP interconnection discussions taking place outside of the community

(S)electing Chairs

- Even though we're brand new, we need a process

- It's up to us to decide, as long as:
  - We have a way to select a chair
  - We have a way to unselect a chair
  - We define terms and possibly term limits

Suggestion

- We set a 3 year term for chairs, after which they're automatically unappointed but can be reappointed by the working group
- We do this in a staggered way to ensure continuity
- Selecting a chair happens on the mailing list
- We aim to always have 2 co-chairs
